

Dear Parents/ Carers

The third unit of the Foundation Paragon Curriculum is called 'All about homes' and explores the Essential Question, "What is a home?" We will focus on the concept of a "home" as a shelter to provide warmth, comfort and protection.

We will explore different types of homes here and in other countries. We will talk about how houses can be built for different climates.

We will also learn about animal homes. Exploring wild animal habitats and discussing how pets can live in people's homes.

Finally, we will talk about the concept of the Earth as our home planet and how we should look after it.

Throughout this topic we will enjoy stories which feature homes. When reading, please draw your child's attention to different kinds of homes and we would love to share any good stories/ non-fiction books you find with the rest of the class.
